

WASHING DAY

It is the year 1832 and Alice is a convict at the Cascades Female Factory. Alice is given a job in the Washing Yard where she works long hours every day scrubbing clothes in the wash tub, hanging the clothes out to dry and ironing them using a heavy flat iron.

Can you help Alice to do her job by placing the items below in the order that she should use them?

Instructions: Cut out the pictures of washing equipment and glue them in the box below in the order you think they should be used, from first to last. Write the name of the equipment in the space provided.
